

Haogenplast is a global leader in the development, design & manufacture of premium quality Pool lining. Since our establishment in 1952, we have earned a solid reputation for our extensive experience and knowledge in technical & decorative solutions.

**Major Capital Investments:**

- Advanced 5 layer lamination unit
- New state-of-the-art wide width calendaring production line,

All for the purpose of perusing highest level and advanced pool lining range.

With a dedicated, well-equipped, in-house R&D department committed to the development of new, cutting-edge products, as such as the StoneFlex, our team of keen scientists work hard to develop the newest generation of exceptional, innovative products that are designed to meet all of your needs.

**OgenFlex - A Seal of Quality**

Developed and produced according to the specifications of standard (NF 5 54-803-2), EN 15836-2-2011, KSW – Recommendation (German public pool).

OgenFlex meets strict standards of quality, in a product that is easy to install in swimming pools of any shape, size or type. The versatility, professional installation, and exceptional properties of OgenFlex liners make it an industry leader worldwide.

A Seal Of Quality

# 10 Reasons to Choose OgenFlex Pool Liners

## 1. Excellent Resistance to Microbial Growth

Preventing microorganism surface growth such as: algae, mold and mildew often prevalent in pool systems.

## 2. U.V Stability & Color-Fastness

Chemically designed for enhanced U.V stability and superior color fastness performance.

## 3. Hot-Air Welding Strength

Easily welded and demonstrate exceptional hot-air welding strength / peel resistance.

## 4. Excellent Abrasion Resistance

Maintain smooth, intact surface as well as easy to clean properties for longer period.

## 5. Resistance to Super-Chlorination

Exposure to extensive super chlorination results in minor to non visual effect for all colors and designs (including light gray).

## 6. Superior Lacquered Liners

Exclusive stain resistance and clean-up properties.

## 7. Liquid PVC (Membrane Seal) – New and Improved

Increased durability, as well as stable viscosity & re-usable capability.

## 8. Superior Quality Assurance Processes

Stringent quality control methodology for excellent quality & stable processes.

## 9. ElvaFlex - Premium solutions: Extreme Lifespan & Durability to Chemicals

Certified Potable-water formula. Exceptional resistance to enhanced U.V. conditions as well as unique durability when in direct contact with chemicals including fuel & oil.

ElvaFlex is the ultimate solution for those customers who insist on having a liner that, with proper care and maintenance, will last practically the lifetime of their pool.

## 10. StoneFlex Range – premium design, unique lacquering properties

Haogenplast unique Stone-like design formulated with specialized enhanced lacquering formula – demonstrating exceptional clean-ability properties for our stone design as well as dry, non plastic, and non slip grip.

Color & scale may vary compared with actual production material
